

Nail Polish Marbled Pot

Included Supplies:

- Terra cotta pot
- Disposable gloves

Needed Supplies:

- Nail polish
- Plastic bin/tub (you don't mind ruining!)
- Water

Instructions:

1. Fill your plastic tub about halfway (deep enough to dunk the entire flower pot).
2. Open your nail polish and set aside the brush. Slowly pour the nail polish in random patterns. It should lay on top of the surface of the water.
3. Take your flower pot and hold it sideways so the main body of the pot is parallel to the water.
4. Gently dip the pot into the water. Roll the body of the pot across the surface of the water to pick up the nail polish.
5. Repeat until desired effect is accomplished
6. Let dry and enjoy!
